Codec Technologies Pvt. Ltd. · AICTE & ICAC Approved · Google for Education Partner

- Completed a 1-month AICTE & ICAC approved Cloud Computing internship under the National Internship Portal.
- Gained hands-on experience with cloud infrastructure, services, and deployment workflows in a professional environment.
- Worked under the Google for Education Partner program, applying cloud concepts to real-world use cases.

PROJECTS

Library Management System

Java · Spring Boot · MySQL · REST API · Render

- Built a full-stack library management system with features for book inventory, user management, and borrow/return tracking.
- Developed RESTful APIs using Spring Boot and deployed the backend on Render for public accessibility.
- Implemented secure data persistence with MySQL and applied proper exception handling throughout the service layer.

E-Commerce Web Application

React.js · Node.js · MongoDB · Express

- Designed and developed a responsive e-commerce platform with product listing, cart management, and user authentication.
- Integrated a Node.js/Express backend with MongoDB for dynamic product and order data management.
- Implemented clean, component-based architecture in React.js ensuring scalability and maintainability.

Personal Portfolio Website

React.js · Vite · Vercel

- Developed a responsive personal portfolio to showcase projects, skills, and professional background.
- Utilized React.js with Vite for optimized build performance and deployed on Vercel for seamless CI/CD.
